## THE KVAJEBAJER, OR “FAILURE BEER”

A failure beer is something you provide to all your colleagues when they’ve just seen you make a foolish or avoidable mistake.

If it’s working hours, you might opt for a failure cake instead. For example, I had a client, a small tech firm, that was three days late with an important delivery. When they brought the delivery, they brought a failure cake along too.

Failure cake or failure beer is about an acceptance of human frailty. And it’s rooted in the Danish passion for equality. We’re all human, we all make mistakes, so let’s have a beer.
