9:41 AM

Hey, what were the main takeaways from today's design sync?

The team spent most of the session reviewing the new onboarding flow.

The biggest discussion was around the empty states. Sarah felt the current illustrations don't match the new brand direction, and most of the room agreed. There was also a long back and forth about whether the progress indicator belongs in the header or the sidebar.

The overall mood was positive though. Most people think the flow is close to ready for a wider review.

Did anyone bring up the Q3 roadmap?

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Yes, it came up twice. Marcus said the roadmap review is now expected in the first week of August, and Priya asked

DevBot
Jam session recap ple
Most of the session was about the new onboarding flow.
The one open question is the empty states. Sarah thinks the current illustrations are off-brand, and most of the room agreed, but nobody decided what happens next.
I'm not entirely sure what that means, can you elaborat
I'll pull up the latest information to summarize.
DevBot is working

screenshot 2026-10-11 at 11.42.03 AM.png

oops i clicked enter
and now its running

press ctrl+c to abort, press multiple times until terminal is back to normal, then type:

```
mise self-update
mise install
```

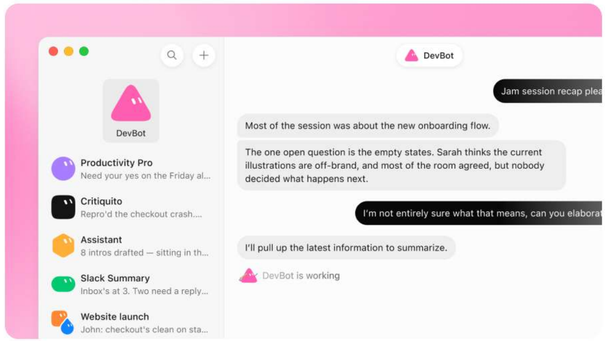

uhhh it got stuck and i cant type

screenshot 2026-10-11 at 11.46.23 AM.png

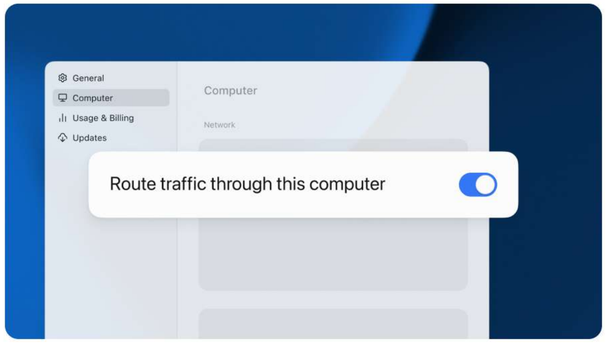

how's this?

or maybe we go with blue

First one is great
Can second one be more grounded in the actual product visual language?

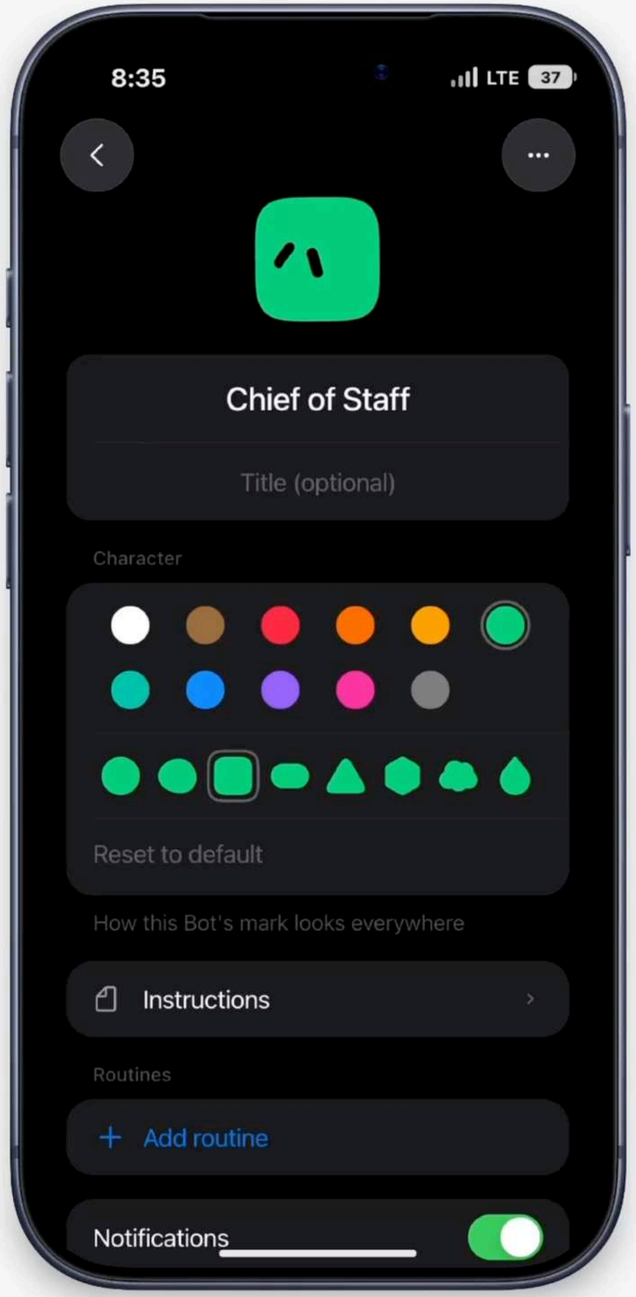

yup! you mean just the styling like this?

What make it better for business than Codex?

I've been using Codex as my engineer and business assistant.

I love /goal and it has a killer (underestimated) feature that Grok Bot doesn't have:

Voice mode.

Closest thing to experiencing The AGI I've seen.

10:11 AM · Aug 16, 2026 · **255** Views

MadeItHappen
@MadeItHappenX

If Grok Bot adds voice, it's over.

I'd cancel ChatGPT and Claude the same afternoon.

I don't need another chatbot in my pocket.
I need a staff I can talk to.

1:42 PM · Aug 16, 2026 · **119** Views

Christian Rishøj
@crishoj

Voice mode. Being able to converse with @bot hands-free would be a game changer

2:58 PM · Aug 18, 2026 · **19** Views

Jarrett Woods
@jarrett_woods

@spacexai — @grok voice mode is awesome and grok @bot is amazing as well... any plans to enable grok voice in bot? Would love to have conversations with my bots while driving.

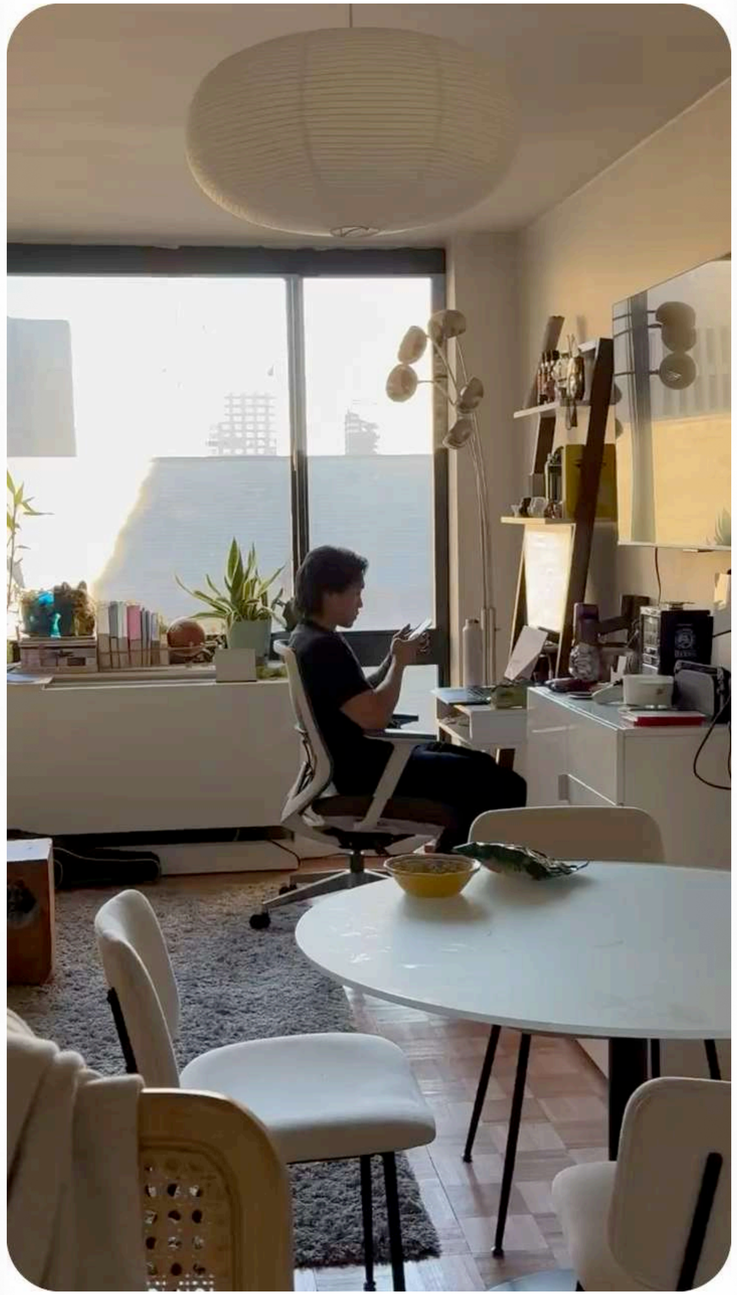

6:55 PM · Sep 4, 2026 · **172** Views

G.I Joe
@Joedefendre

@mattyp

Hey Matt, hope all is well I have another feature request for you and the team!

Grok voice added to @bot so I can talk to each agent verbally and they can give me an update of the day ! Also would be great if they could

Two AIs bouncing ideas off each other would unlock some next-level usefulness. Let them cook.

@elonmusk

5:49 PM · Aug 15, 2026 · **228** Views

Greg Tritthart
@GregTritthart

Grok Bot is already insanely close to Jarvis. The one missing piece is still wild: I can't listen to the answers. Have to read every reply. Text-to-speech / read-aloud in chat (phone and computer) isn't a nice-to-have. It's the unlock. Ship audio responses please.

@bot @elonmusk

11:35 AM · Sep 11, 2026 · **38** Views

shlomokabareti
@shlomokabareti

question, what is the story when it comes to being able to talk to grok bot like on a proper phone call or having them join a google meet call. grok voice is already built on live kit so it would not be the biggest change if I am not mistaken

4:01 PM · Aug 18, 2026 · **107** Views

Chris Vanderplank (Intrepid Developer)
@IntrepidDev1988

I've been really enjoying the full voice mode in the codex app. Can't wait for Grok to get something similar, mind you Grok Bot is turning out to be really good at helping me manage side projects 🙂

Happy to connect too 🙂

6:38 AM · Aug 16, 2026 · **21** Views

Andrew Dawson
@AndrewDaws79943

@elonmusk @bot having a voice/hands free mode with Grokbot would really make my long car rides, turn into productive time. Any idea when we can see this?

Grok Bot
Today 9:12 AM
Set up the onboarding review with Priya and Marcus for Thursday.
Done. Thursday at 2, and the new prototype is linked in the invite.
Add Monday's test notes too.
Added, right under the prototype link.
Ask Grok Bot

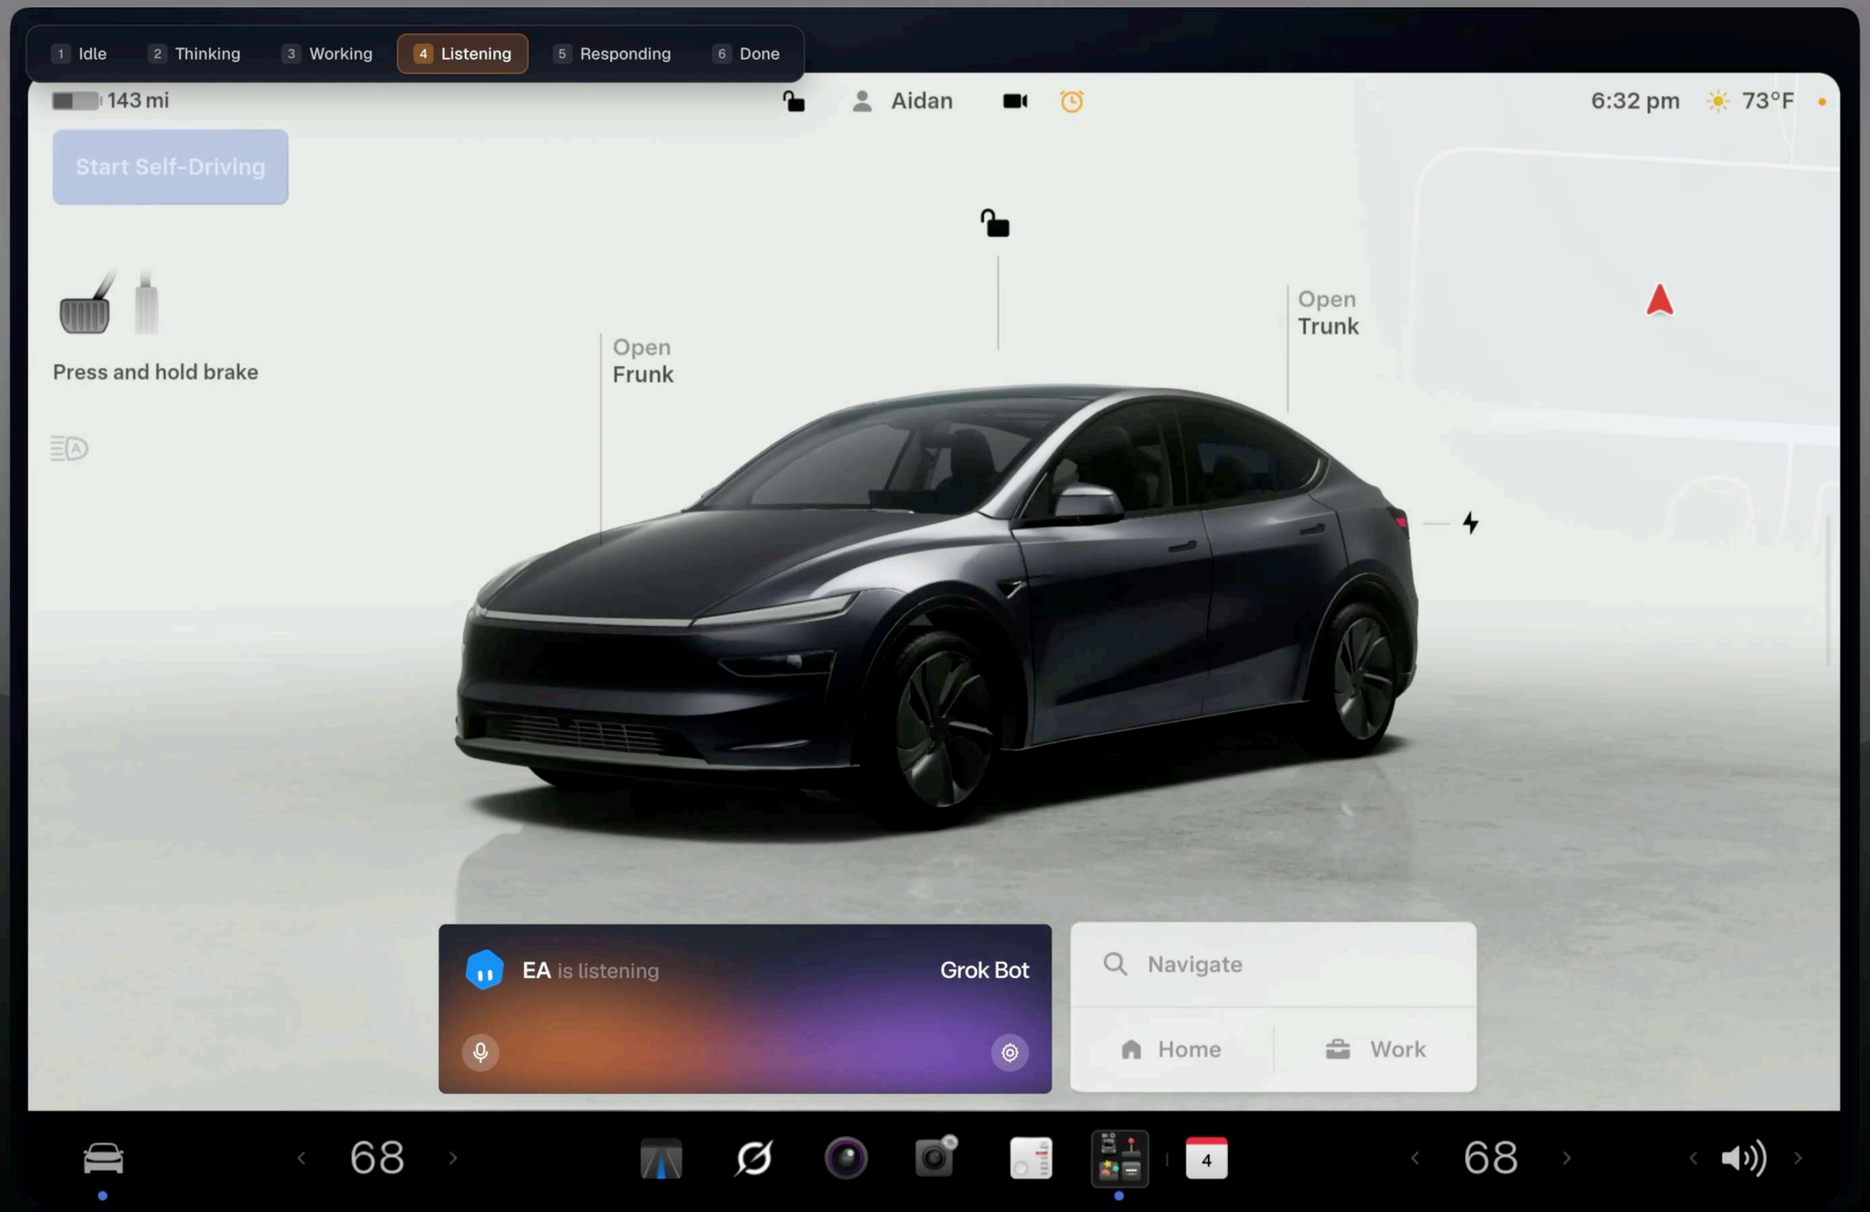

Teambot
ut 80% there. Metrics and roadmap one; I'm still waiting on the hiring slide from Recruiting.
Swap the roadmap slide to the two-quarter view and drop the org chart.
Done. I also set a standing check so the deck never sneaks up on us again:
Created routine All-hands deck status · Fridays 9:00 AM
6:12 PM
Can you get the onboarding prototype ready for Lee? He's reviewing it tomorrow morning.
On it — folding in what came out of the design sync.
Updated prototype 4 screens
Ready. Four screens: welcome, permissions, your first Bot, and a quick tour. The empty states keep the old illustrations until Sarah's new ones are in.
Good. Send Lee the link.
Sent. He'll leave his notes in Slack.
7:34 PM

Support says checkout is crashing for some users on Safari. Can you dig in?
On it — spinning up a clean session to reproduce.
Reproduced on Safari 17 with an expired promo code in the cart. The retry handler throws and takes the whole form down.
How widespread is it?
About 2% of checkout sessions over the last 48 hours — 31 users. All recovered by refreshing, so no lost orders that I can see.
File it with full repro steps and loop in Marcus for the fix.
Repro'd the checkout crash. Write-up's in the ticket.
Messaged Marcus
Today 9:55 AM
Can you run a full test pass on the shared bot project?
Running the full test pass on shared bots now. I'll file anything I find.

Yesterday 2:30 PM
Let's open the senior frontend req. Same bar as last time.
On it. I'll source from the usual pools plus the folks who starred our repo, and draft outreach in your voice for anyone who clears the bar.
Searched 120 profiles
First pass done: 9 strong profiles. Cross-checking against the ATS now so we don't double-contact anyone.
Today 10:12 AM
Where did the sweep land?
Three cleared the final bar: two staff engineers at design-tool companies and one senior at a fintech. LinkedIn drafts are ready in your voice.
Anyone we've already talked to?
Sourced 3. Skipped one already in your ATS.
